EDUCATION

University of Petroleum and Energy Studies, Dehradun	2024 - 2026
Master of Computer Applications (MCA) - Artificial Intelligence and Machine Learning	CGPA: 6.13
Graphic Era Hill University, Dehradun	2021 - 2024
Bachelor of Computer Applications (BCA)	CGPA: 7.24

EXPERIENCE

Anantixia LLP Java, Spring Boot, MySQL, REST API	August 2025 – January 2026
Software Developer Intern (AI/ML)	Remote, Gurgaon
- Designed and implemented backend architecture using Java and Spring Boot, ensuring secure and scalable APIs for seamless front-end integration. - Developed RESTful services and optimized database interactions using MySQL, improving system performance and reducing response time by 25%. - Integrated modular features for real-time data handling and role-based access control, enhancing usability and operational efficiency for educational institutions.	

PROJECTS

Intrusion Detection System Python, YOLOv4, OpenCV, Twilio
- Developed a real-time intrusion detection system using YOLOv4, achieving 95% person-detection accuracy on live video. - Integrated OpenCV for video capture and preprocessing, reducing detection latency by 30%. - Designed deployment architecture supporting up to 5 simultaneous IP cameras for scalable surveillance. - Integrated Twilio API for real-time alerts, improving monitoring responsiveness by 40%.
Chat Application Python, Tkinter, Sockets
- Built a terminal-based chat application handling 10+ concurrent users through Python sockets for real-time communication. - Designed a GUI with Tkinter, increasing usability and reducing message delay by 25%. - Tested and deployed on localhost to simulate multiple client interactions, ensuring stability under load.
Hospital Management System HTML, Flask, MySQL, SQLAlchemy
- Engineered a web-based hospital system automating patient, doctor, and billing management for 100+ records. - Developed modular Flask backend with SQLAlchemy, improving code maintainability and reducing API response time by 20%. - Integrated secure login using Flask-Login, ensuring 100% session integrity during testing. - Configured MySQL database with full CRUD operations, supporting real-time data tracking and logging.

TECHNICAL SKILLS

- **Languages:** Java, Python, HTML, CSS, JavaScript, React
- **Technologies:** Tailwind CSS, YOLO
- **Databases:** SQL
- **Tools & Platforms:** Git, GitHub, Jupyter Notebook, Google Colab, Microsoft Office, VS Code
- **Core Concepts:** Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Software Engineering

CERTIFICATION

1. [Certified Data Science with Python by Coincent](#)
